### Our New Facilities Manager—Francis Smith

HE'S THE NEW GUY!! Francis Smith, our new Facilities Manager has been around the world three times, thanks to the US Navy , and we are lucky he has landed here. This multi-faceted man is a licensed electrician, licensed plumber, and knows building construction. BUT WAIT! There's more - a minister and a jazz musician (see Youtube under the name RUAH recordings). He has four children, but in this case they are moving to Atlanta to be near him, not the other way around. His goal at Huntcliff is to make a good facility a GREAT one. He is very approachable, and wants to get to know as many residents as possible. So contact him with any needs or suggestions. We welcome him, and know he will be a valuable asset to Huntcliff and all our residents.

### Humor

I never thought orthopedic shoes would really work for me. But I stand corrected.

Once upon a time there was a king who was only 12 inches tall. He was a terrible king but he made a great ruler.

### The Surgeons's Story (Humor)

Five surgeons are discussing who makes the best patients on the operating table. The first surgeon says, "I like to see accountants on my operating table because when you open them up, everything inside is numbered." The second responds, "Yeah, but you should try electricians! Everything inside them is color coded." The third surgeon says, "No, I really think librarians are the best; everything inside them is in alphabetical order." The fourth surgeon chimes in: "You know, I like construction workers...those guys always understand when you have a few parts left over at the end, and when the job takes longer than you said it would." But the fifth surgeon shut them all up when he observed: "You're all wrong. Politicians are the easiest to operate on. There's no guts, no heart, and no spine, and the head and butt are interchangeable."
