

## Huntcliff Artist—Pat Harper

**Knit One...Purl Two**, the basics in the knitting world, introduced Pat Harper to a hobby that she has enjoyed for over sixty years. From beginning basics to advanced techniques, she has produced striking examples, including place mats, house slippers and baby blankets, as well as complicated patterns in sweaters, skirts, shawls, shells and cowls. The first large piece she made was a sweater in 1963 for her husband, which he yet wears. For Pat, knitting is not only enjoyable; it is also therapeutic for those dreary, “down” days.

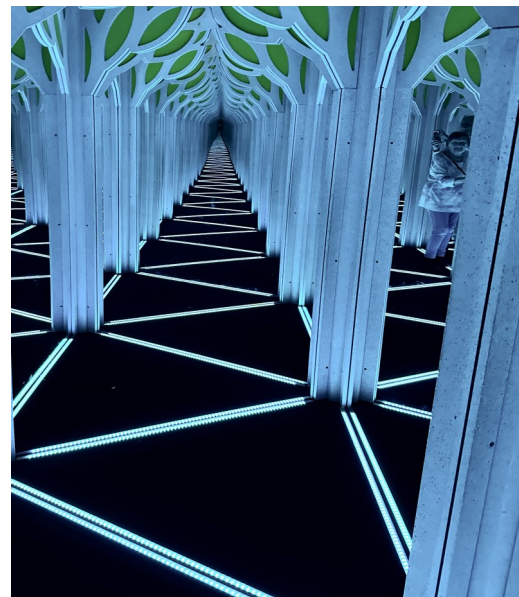

On the left, some examples of Pat's work.

On the right, a sweater that Pat made for Charlie 63 years ago, which he still wears in colder weather.

## A Trip Through Georgia History

On Friday, August 23, 17 of us went to the Fernbank Museum of Natural History. A special exhibit called Numbers in Nature: A Mirror Maze had our group laughing and groping as we searched our way through the maze....some went more than once. Returning to the main hall, we passed through “A Walk Through Time in Georgia” exhibit. A highlight was the IMAX movie - Superhuman Body: World of Medical Marvels 3D. We learned about the wondrous discoveries for treating leukemia, heart valve replacement and rehabilitation for severe injuries. After lunch we returned home filled with the pleasure of a good day.

## Food for Thought

Wouldn't it be great if we could put ourselves in the dryer for ten minutes and come out wrinkle free and three sizes smaller?

If God wanted me to touch my toes, he would have put them on my knees.
